8 / photography styles

# 1/signature

**About/** The logo represents the central element of the visual communication. Keeping the chromatic and graphic elements unchanged will ensure a consistent communication.

**Fonts /** Sans serif fonts will be used in order to “humanize” the text blocs. Together with the check sign integrated into the “m” of the logo, it will induce the idea of a job well done, verified at delivery.

**The slogan /** It reflects the brand positioning. It is always written in caps to suggest trust and consistency.

black & white variation

# 2/configuration

[Details/](#) The logo is the result of merging the check sign and the type spelling the company's name.

# 3/distances and safety zones

**Dimensions** / These situations show the minimum dimensions when using the logo - in order to preserve legibility and graphic integrity

## Print

Main logo: 30 mm

## Display

Main logo: 220 px

**Safety zone**/ It is defined by the size of the graphic element in the logo and will be used for all horizontal and vertical distances.

# 3/graphic elements

Details/ The main graphic element, the check sign, was used to generate the elements describing the visual universe of the brand

5

The generated boxes have to include a "missing" top left corner.  
The width of the "missing" corner may vary from 1/8 to 1/3 of the width.

CO FRundung und Frasting

“ If you already have an ERP software and you need its integration with other applications, you can count on us. Having expertise in various areas including CRM and XXXXX, we can ”

Text box

# 4/chromatic palette

The main brand colors are the 2 nuances of grey and turquoise. The same colors may be used for other graphic elements.

Contrast color will be blue, as presented, and it may be used only to highlight text or graphic elements.

Logo colors

Culori ajutatoare / se vor folosi impreuna cu culorile ce compun logo doar la crearea schemelor de functionare a diferitelor arhitecturi de software ( vezi sectiunea statyonary)

# 5/forbidden usasge

The following situations are forbidden in order to avoid breaking the visual coherence.

**Color Boom** / Using different colors, others than recommended.

**Effects** / Using any effects in the logotype in order to “enhance”(shadow, emboss etc.)

**Rotation**/ Oblique or vertical use is not accepted.

**Deformation** / Distorted versions are not accepted.

Other situations/ Logo usage while having insufficient resolution - affecting the legibility. Paper printing should be done at 300 dpi.

Applying the logo over photos containing with too many elements is not allowed in order to preserve legibility.

trenmend  
DELIVERED AS INTENDED

The logo is shown in its correct, intended form. The word "trenmend" is in a dark grey font with a blue checkmark above the "m". Below it, the tagline "DELIVERED AS INTENDED" is in a smaller, blue, all-caps font.

vraianta corecta

trenmend  
DELIVERED AS INTENDED

The logo is shown with a pink 'X' over it, indicating it is forbidden. The text is distorted and skewed.

deformari

trenmend  
DELIVERED AS INTENDED

The logo is shown with a pink 'X' over it, indicating it is forbidden. The text is in a different color than the recommended one.

color boom

trenmend  
DELIVERED AS INTENDED

The logo is shown with a pink 'X' over it, indicating it is forbidden. The entire logo is rotated at an angle.

schimarea pozitiei

trenmend  
DELIVERED AS INTENDED

The logo is shown with a pink 'X' over it, indicating it is forbidden. The text is in a random color.

folosire culorilor aleatorii

trenmend  
DELIVERED AS INTENDED

The logo is shown with a pink 'X' over it, indicating it is forbidden. The text has a shadow or other effect applied to it.

orice tip de efect

# 6/fonts

In all the communication materials there needs to be only one font with 2 variations: Roboto Light and Roboto Thin. These fonts are recommended for official documents as well as for internal communication. This will ensure convergence in communication. This font is closely related to the font used for the logotype.

[Details](#) / Subtitles have to be 30% smaller than the title, using Roboto Light. Body copy will be also using the Roboto Light font.

ROBOTO LIGHT

## Trained professionals

Tremend's team gathers professionals trained in the best educational institutions in Romania, with internationally recognized results, who have gained extensive knowledge in multinational software companies and have chosen Tremend for high standards of work, individual skills development and technical

Orange Customer Care.  
10+ million clients served.

The portal allows customization of personal information and management of services and options. Among the provided services:

# 7/photography styles

**Styles /** The images have to impress with quality, production and subject. Always choose images with a strong concept. Preferred are the epic images with unusual framings, images that can induce the idea of contemplation and relaxation.

Avoid stock images like people shaking hands

Pentru folosirea ca background se va folosi un layer 100% Black cu o transparenta de 60% si cu multiply aplicat.

# Stationary & layout

- 1 /business letters
- 2 / business cards
- 3 / email signatures
- 5 / ppress ad / flyer

# 1/business letters

Recommended: 80g/mp A4 paper. All the official documents should use the template described bellow.

Details / Content should be separated by the rest by using the already defined graphic elements. Letters should use the same rules of composition for the layout as the business offer template.

Title font:

Roboto Light size 31pt

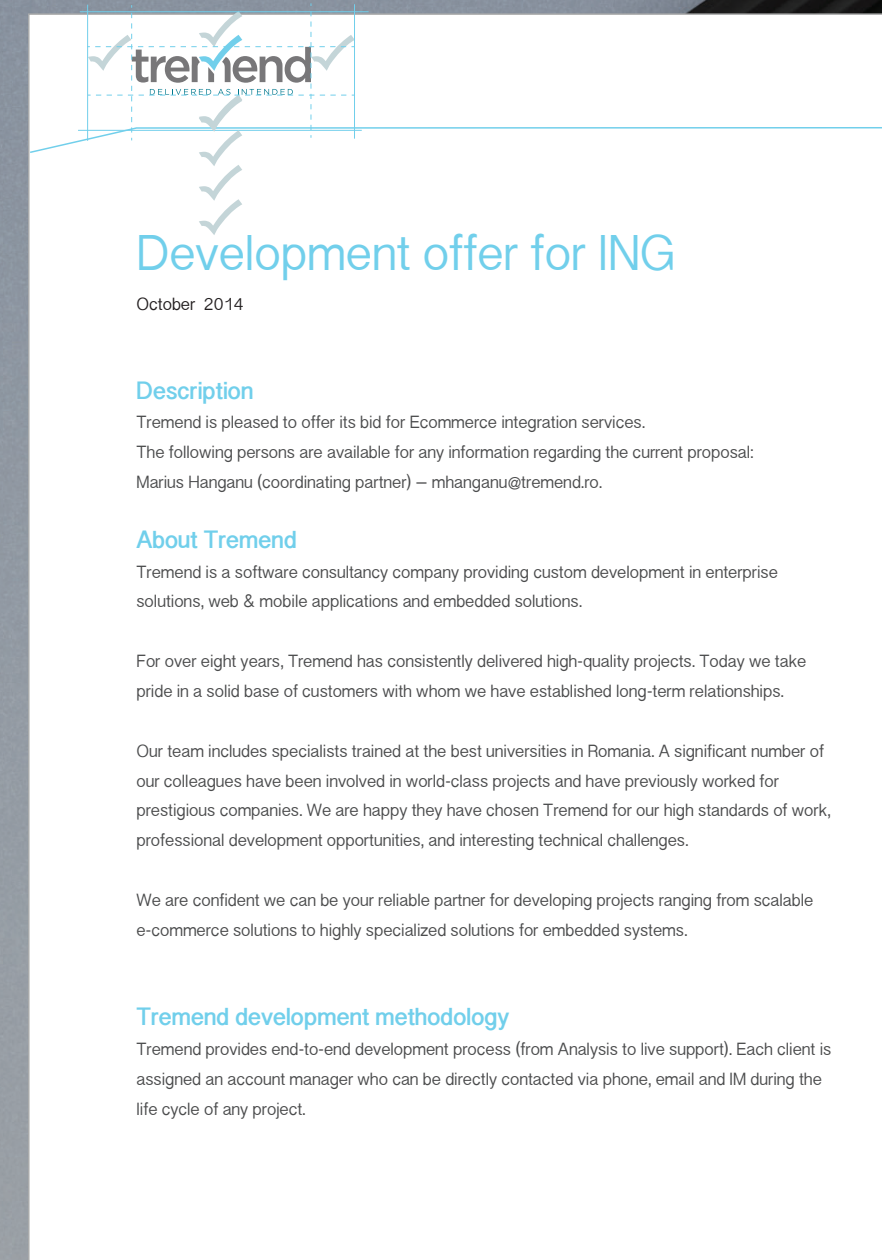

Subtitle:

Roboto Light size 16pt

Body text:

Roboto Light size 11pt

For Office Word, the font will be changed to Kannada Sangam MN

# 2/business card

The size of the business card should be 9x5 cm, using 350g/mp grey paper. The upper left corner should be cut as defined in the 1/3 ratio defined in the “Graphic elements” chapter.

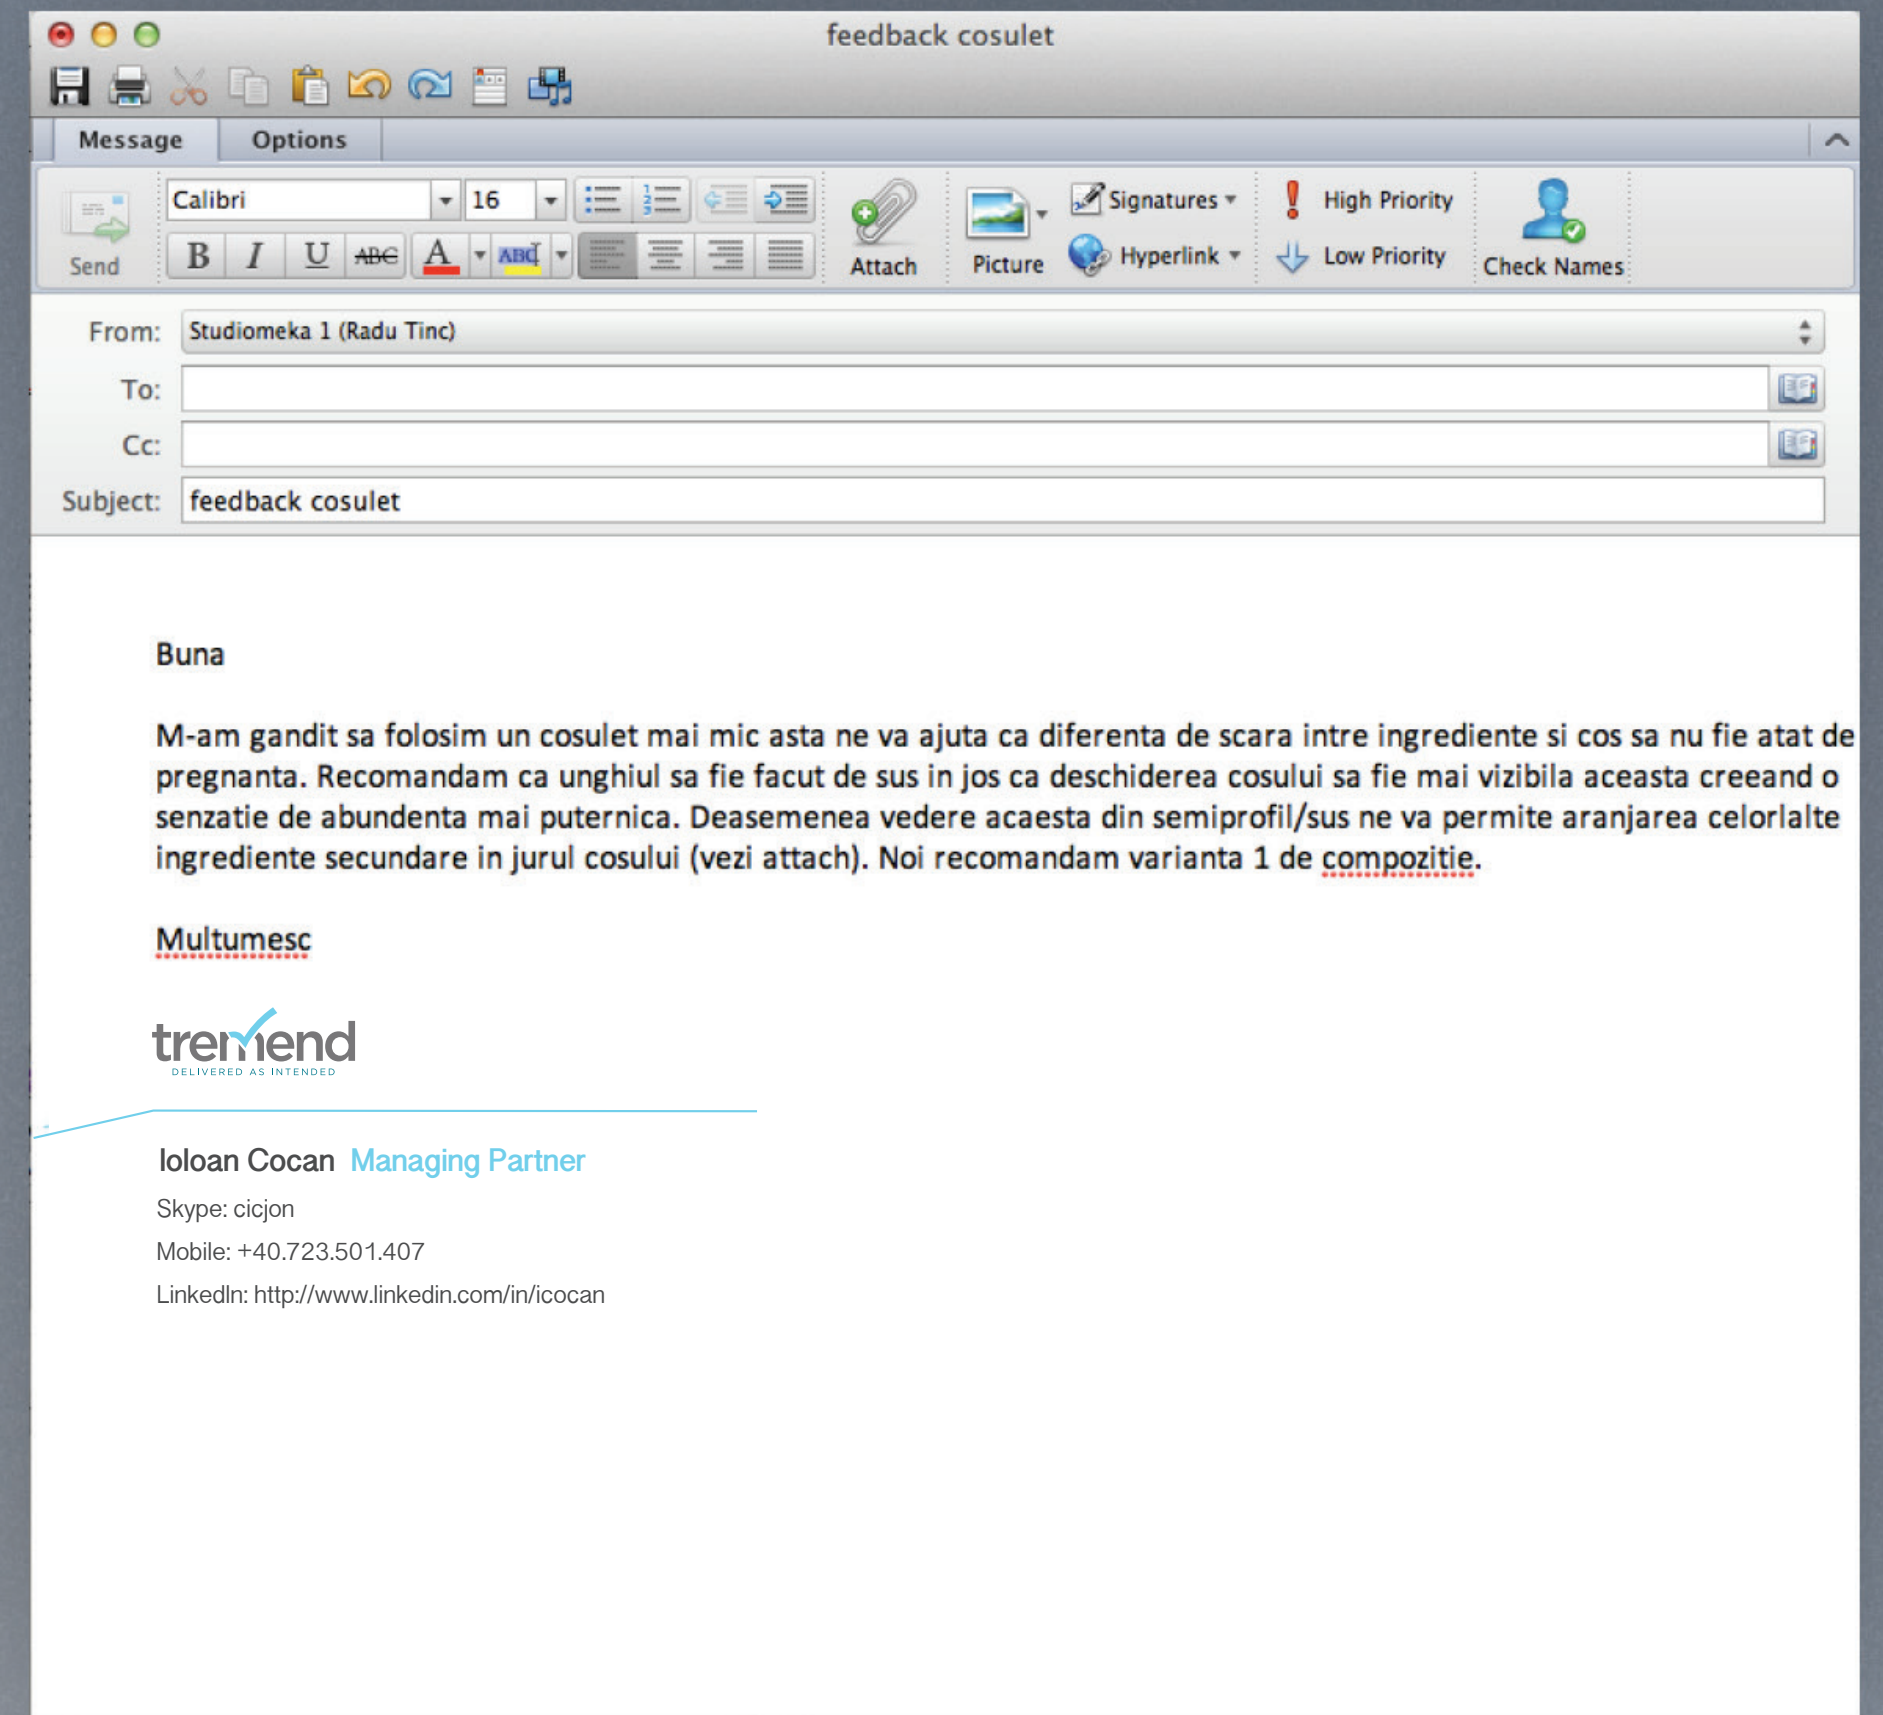

**Front** / Business card should reflect the Tremend identity. The check sign should be emphasized with glossy finish.

**Verso** / Printed in 90% black, also the check sign should be emphasized with glossy finish.

# 3/email signature

For the separation of the content and signature, the same graphic element as in the business letters template will be used: the "Broken line" respecting the 1/8 ratio.

# 3/press ad/flyer
